**DETAILED ACTION**

**REASONS FOR ALLOWANCE**

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Lu et al. and Yamaha fail to disclose the combination of all the limitations recited, including a conductive layer, interlayer insulating film, a second insulating film having a film thickness greater than that of a first insulating film, a single layer pad is bonded without a bonding wire, and a second layer pad of the two layer pad is bonded with the bonding wire.

Lu et al. and Yamaha fail to disclose the combination of all the limitations recited, including a test pad formed on an interlayer insulating layer apart from the bonding pad, a conductive line electrically connecting the bonding pad and test pad with each other, a contact plug selectively formed in a part of the interlayer insulating layer sandwiched between the bonding pad and the intermediate pad layer; a passivation film cover the bonding pad and test pad; openings that expose test pad and bonding pad.

Therefore, the overall structure of a semiconductor integrated device provided with a conductive layer and an interlayer insulating film is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
